Professional Summary

Full Stack Engineer skilled in Next.js, React, Angular, TypeScript, JavaScript, and Express. Constantly improving my coding skills and expanding my portfolio by sharing my work online.

Technical Skills

Programming Languages: C++, JavaScript, TypeScript, HTML5, CSS3, SQL
Frontend Development: React.js, Context API, TailwindCSS, Material UI
Backend Development: Node.js, Express.js, RESTful APIs, JWT Authentication
Database: MongoDB, PostgreSQL, Firebase,
DevOps: Git, GitHub, Cloudflare Workers, Vercel
Testing & Tools: Postman, VS Code, npm
Core Concepts: Data Structures, Algorithms, System Design

Projects

MERN GitHub App Demo Code

September 2024

- **Full-Stack Development:** Built a GitHub explorer web application using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- **API Integration:** Integrated GitHub and external APIs to fetch and display user repositories and related data dynamically.
- **Responsive UI:** Designed a mobile-first, responsive interface in React.js for seamless performance across various screen sizes.

Food Delivery Website Demo Code

January 2025

- **UI & Responsiveness:** Designed a sleek, mobile-friendly user interface with intuitive navigation and real-time order tracking.
- **MERN Stack Development:** Developed the platform using React, Node.js, Express, and MongoDB for efficient performance and scalability.
- **Real-Time & Security Features:** Integrated WebSockets for live order status updates and implemented JWT-based authentication for secure user sessions.

Chat App Demo Code

February 2025

- **Frontend Development:** Built a real-time chat app with React, JavaScript, and CSS featuring a responsive and interactive UI.
- **Authentication:** Integrated Firebase Authentication for secure user login and session handling.
- **Real-Time Sync:** Used Firestore to enable real-time message synchronization and live chat updates across users.

Portfolio Demo Code

February 2025

- **Developed with React.js:** Built a professional portfolio with a responsive design for seamless viewing on all devices.
- **Styled with Tailwind CSS:** Used Tailwind CSS for a clean, visually appealing, and structured layout showcasing projects, skills, and experiences.
- **Deployed on Vercel:** Hosted the project using Vercel for fast, reliable, and continuous deployment with custom domain support.

Education

Dilap Research Institute of Engineering And Management

2021 – 2025

Bachelor of Engineering in Computer Science Engineering (CGPA: 7/10)

Mumbai, Maharashtra

- Relevant Coursework: Data Structures, Algorithms, Database Management

ExtraCurricular

- I actively share my work and insights on Twitter and have posted for more than 75+ days.
- Apart from coding, I enjoy watching movies and have a keen interest in subjects like history, geopolitics, and psychology.
